Convention	Description
	Provides additional information to emphasize or supplement important points of the main text.
	Indicates a potentially hazardous situation, which if not avoided, could result in equipment damage, data loss, performance degradation, or unexpected results.

Tool list

The installation tools are not provided with the switch. Prepare them yourself.

Flat-blade screwdriver

Phillips screwdriver

Needle-nose pliers

Marker

ESD wrist strap

Installation accessories

Mounting brackets

M4 screw

Cage nut
(user supplied)

M6 screw
(user supplied)

Cable tie

Grounding screw

The applicable installation accessories vary by switch model. Some accessories are not provided with the switch. The packing list describes the accessories provided with the switch.

Wear an ESD wrist strap, and make sure the wrist strap makes good skin contact and is reliably grounded.

Mounting the switch in a rack

Attach the mounting brackets to the switch

Install cage nuts

Mount the switch in a rack

Connecting the grounding cable

Correctly connecting the grounding cable is crucial to lightning protection and EMI protection. Use the grounding cable provided with the switch for grounding.

Connect the grounding cable to the switch

Connect the grounding cable to a grounding strip

Connecting the power cord

Before connecting the power cord, make sure the switch is reliably grounded.

To avoid bodily injury, connect the power cord first to the switch and then to the equipment-room power supply system.
