

Condensate trap for aspirating smoke detectors

**Part-No.: 801606**

Condensate trap with sintered metal filter for separation and absorption of condensed liquids, used for protecting aspirating smoke detectors against humidity condensate, oil, etc.

Features:

- Plastic housing with manual outlet valve
- Plug connectors for attaching to a piping system

Ambient temperature	0 °C ... 60 °C
Material	ABS
Color	light gray
Weight	approx. 620 g
Dimensions	W: 68 mm H: 680 mm D: 36 mm
