

Eco

Eco small-size tripod turnstile ideally fits to provide access control at small lodges of enterprises, offices, banks, public transport compartments, where small size, design reliability and efficiency are equally important. The turnstile is intended to be used as a part of access control systems for organizing people's entrance to the supervised territory. The main advantages of this turnstile are small size and affordable price.

Compact

small dimensions of the turnstile allow to set into any desired location

Antipanic function allows opening a passageway in case of emergency.

④ Wall-mounted.
