- Connect with Seagate partners through topic-based forums, build community, and get your questions answered fast.

TRAIN ON THE GO!

Train, earn, and connect anytime, anywhere. The Seagate Champions mobile app is available on all Android and Apple® mobile devices.

Seagate Systems Training Certification

Help yourself stand out from the crowd — take your product knowledge to the next level and get certified in Seagate Systems.

Enrolling in and completing Seagate Systems comprehensive certification program offers numerous advantages to you, and ultimately to your customers. These include:

- Expanding your familiarity with Systems products
- Enhancing product proficiency
- Developing subject matter expertise
- Positioning you as an industry leader
- Increasing customer confidence in your product knowledge
- Achieving certification upon course completion

Demonstrate your Systems proficiency by completing a series of quizzes after each module, and a final comprehensive quiz to sum up all you've learned. Once training is complete, you'll earn a Seagate certification badge that you can display as you see fit.

With Seagate Systems training, there are two tracks to choose from: Solution Professional and Solution Engineering. Regardless of the track you choose, you'll get relevant, up-to-date content that covers a wide variety of topics.

Solution Professional Track

Designed for the sales professional, this track offers learning modules to enhance your Seagate product knowledge and includes the following topics:

- Enterprise storage systems overview
- Smart SAN storage
- Reliable JBOD storage
- Intelligent massive storage

Solution Engineering Track

Designed for the engineering sales professional, this track offers classes that are more technical in nature and includes topics on:

- Hardware overview and cabling
- Exos® X advanced features
- Storage management operations overview
- Exos X SAN storage provisioning
- Snapshots and volume copy
- Asynchronous replication
- Introduction to ADAPT
- CORVAULT™ setup and management

You can find these certification tracks in **Data Storage Systems** under **Cloud and Edge Data Center** in Champions — start now and Get Certified! [Champions.seagate.com](https://champions.seagate.com)
